

Dear Parents/Carers,

Thursday 9<sup>th</sup> February 2017

### **E-Safety Week**

This week we have been talking about internet safety with the children. Please find attached a helpful parental guide for internet safety.

### **Holidays**

We break up tomorrow for February half term. Monday 20<sup>th</sup> February will be an INSET day for staff. Children return to school on Tuesday 21<sup>st</sup> February.

### **Wellbeing Workshop**

A "Wellbeing" workshop has been arranged for parents on Monday 27<sup>th</sup> March at 1.15pm to 3.15pm in the Maypole Centre. Further details will follow nearer the time but if you are interested in attending please let Mrs Underhill or Mrs Pyrah know. Unfortunately we can't provide crèche facilities.

### **Friends of Gawthorpe Meeting**

Tomorrow there will be a Friends of Gawthorpe meeting at 9.30am in the Maypole Centre. We hope you can make it.

### **Garden Centre Visit**

We are hoping to visit the garden centre next half term for our 'what happens to jacks bean' topic. As you are aware we need as many helpers as possible to have a safe journey. If you are able to help us, can you please let a member of staff know which date would be best for you to go.

Thank you for all your support this half term.

We hope you have an enjoyable half term break with your children.

Regards,

The Leadership Team

Mrs S J Vickerman

Executive Principal

Mrs P M Gill

Executive Vice Principal

Mrs A M Mitchell

Head of School

Dear Parent/Carer,

Tuesday 7<sup>th</sup> February is Safer Internet Day (SID). This is a global event where schools and other organisations promote the safe use of the internet. The focus of SID 2017 is **'Be the change. Unite for a better internet'**

It is important as a parent/carer that you support your child in the online world. This can be difficult with the rapid development of technology and the emergence of new Apps. Below are some key ways in which you can help your child on the internet:

- **Apps** – The most popular way for a child or young person to access different games or social network sites is via an App on their mobile device or games console. As a parent, you need to know what types of Apps they are downloading and whether they are suitable for them. A useful site is: [www.common sense media.org](http://www.common sense media.org)
- **Privacy Settings** - On some Apps, you can set up privacy settings to ensure that your child is only sharing personal information with people that you trust. For further information on how to do this with some of the most popular Apps, visit: <https://www.thinkuknow.co.uk/parents/Support-tools/How-to-guides/>
- **Parental Controls** – Many electronic devices come with built in controls or parental settings. However, they are not default settings and you have to go online, in order to find out how you can restrict specific aspects of the device e.g. location settings. A useful site to help you do this is [www.internetmatters.org](http://www.internetmatters.org)
- **Image Control** - Many children use Apps such as **Snapchat** and **Instagram** to share pictures and videos. It is important they understand that sharing 'selfies' and pictures can provide further details of their private life e.g. which location they are taking images. In addition, children need to know that taking inappropriate or 'dare share' images and sharing them on the internet can be dangerous.
- **Live Video** – Over the past twelve months, live video Apps have become very popular. **Facebook Live**, **Live.ly** and **ooVoo** are ways in which children can watch live streams (this is a bit like watching someone's own TV channel) or talking to several people via a 'video chat' facility. We must ensure that our children don't accept or connect with random people on these sites, as there have been a number of incidents which have led to children viewing some very unpleasant videos.

The most important aspect of keeping your child safe in the online world is to talk to them and letting them know that if anything happens that upsets or worries them, then they can speak to you.

Have a good Safer Internet Day 2017.
